Exceptional image clarity and performance

Christie's brightest 1-chip DLP® projector now boasts the ultimate in video performance with the added confidence of 24/7 reliability. The Christie DS+655 features BrilliantColor™ processing and SXGA+ resolution for unrivalled image performance.

The Christie DS+655 delivers 6500 ANSI lumens for brilliant images. For maximum color saturation, a special order Christie DS+405 model is also available at 4100 ANSI lumens. Both models provide you with a stunning contrast ratio up to 7500:1 for detailed black level definition.

The latest 10-bit image processing improves image reproduction with reduced image noise and broader color bandwidth. You'll see the result is spectacular video reproduction.

A series of six motorized, high performance lens options with a throw ratio ranging from 0.8:1 to 7:1 and horizontal and vertical lens shift give you ultimate installation flexibility allowing you to position your projector almost anywhere.

Compact and quiet, both models are ideal presentation solutions for medium to large meeting rooms, training rooms or classrooms, government facilities and executive briefing rooms where quiet, reliable operation is a must. Dual lamp illumination with long lamp life and a filter-free sealed optical engine design provide low cost of ownership with minimal maintenance.

Delivering high reliability, the best price/performance on the market, and renowned Christie warranties and service – you can count on bright, detailed images again and again.
